## About Dancohr

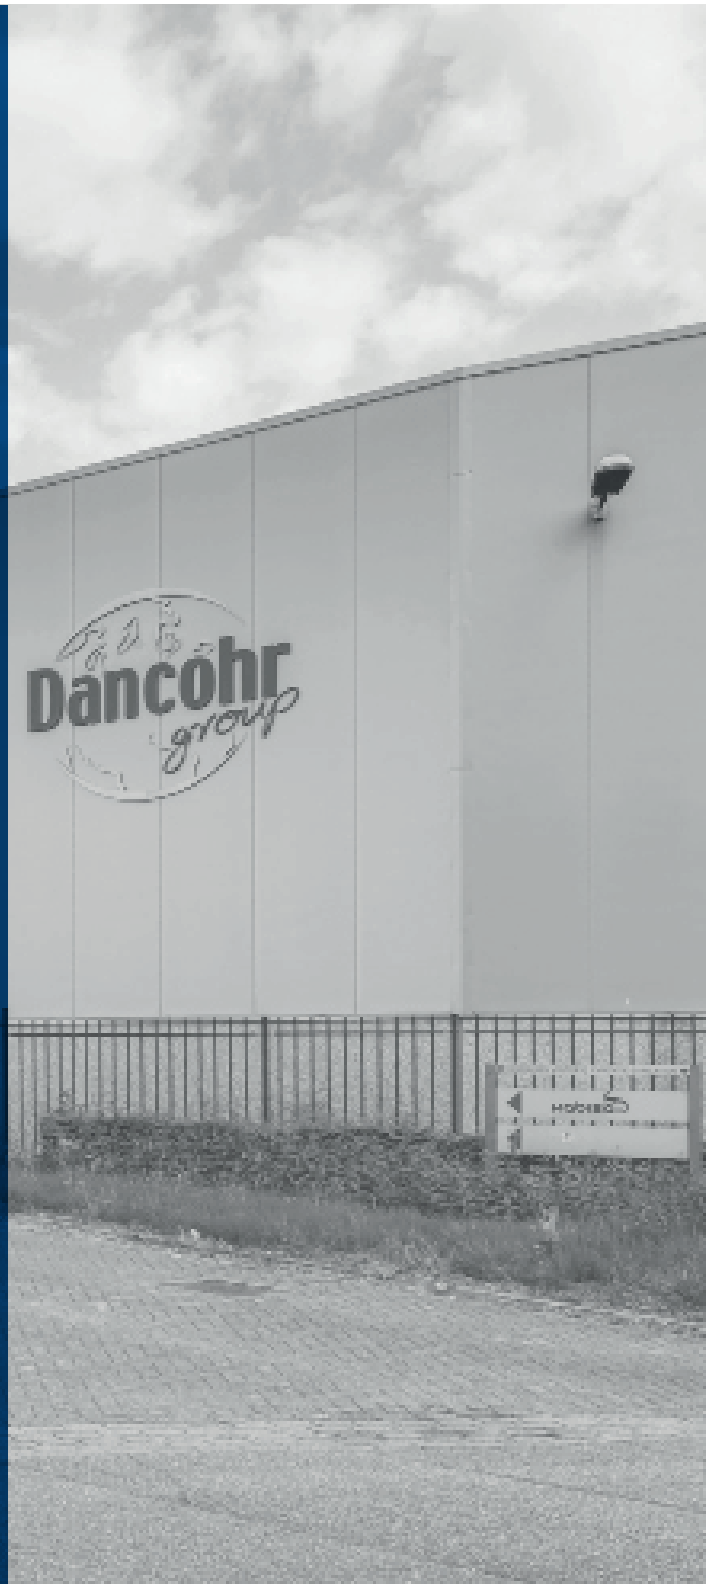

Dancohr Corporation B.V. is a family business that has over 40 years of experience in the pedicure and beauty industry. Dancohr develops both cosmetics and salon interior, distributed under different brands. Its production takes place in the Netherlands and the head office and showroom are located in Weert (Limburg, the Netherlands).

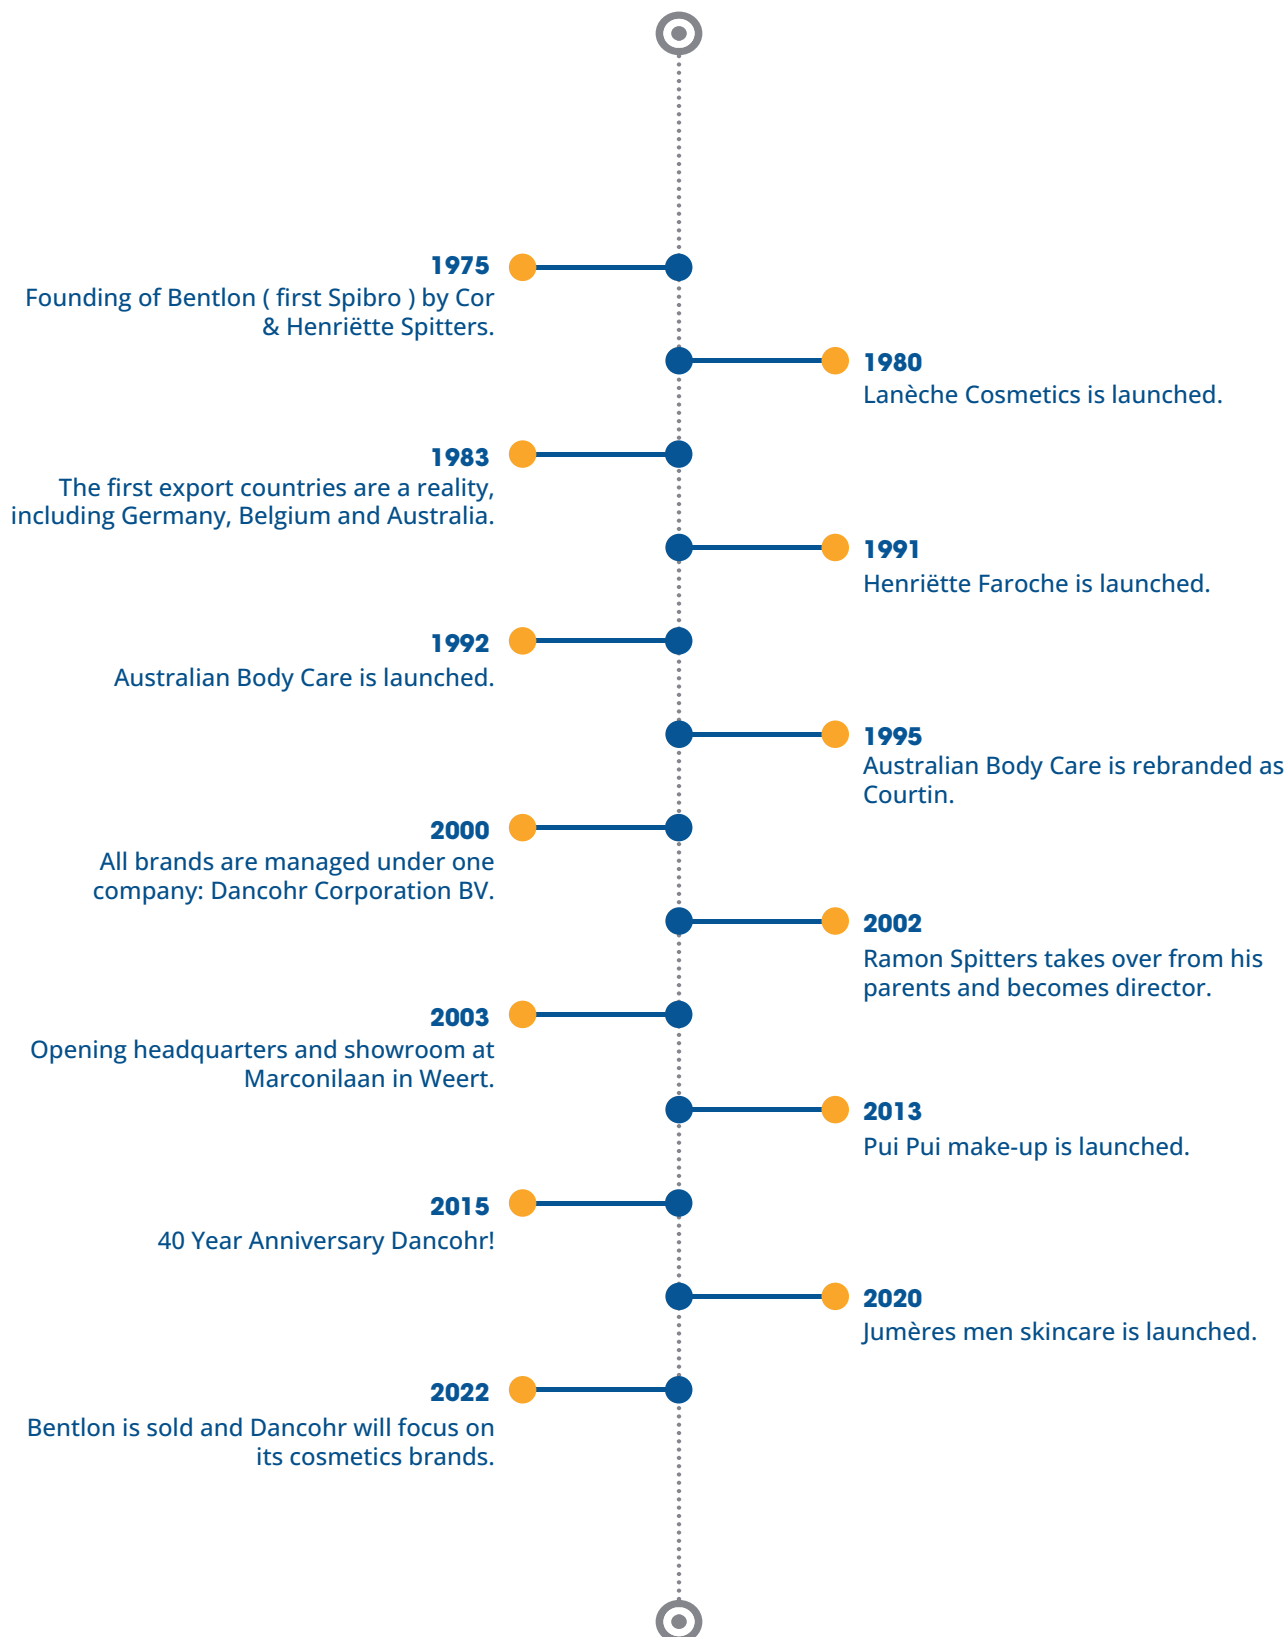

**RAMON SPITTERS**

CEO

Mr. Ramon Spitters is fully responsible for the management of the existing family business and is the driving force behind Dancohr Corporation B.V.. Together with his team he works on optimizing and renewing the brands and products every day again.

# Our history

## Our brands

The skin care line of Courtin is based on 100% pure tea tree oil. This makes the products very suitable for treating a wide range of skin conditions. The range consists of foot care, skin care and body care.

Henriëtte Faroche has a very extensive skin care line where all products have one thing in common: the power of nature. The ancient science of pure products, combined with the latest and most modern insights of skin care.

JUMÈRES

The compact range of Jumères consists of the five most essential care products that every man needs. All products are coordinated with each other, can be easily combined and have a stylish, masculine, refined scent. For a fresh feeling throughout the day.

Lanèche is based on the exclusive Beauty Innovation Treatment Program. The philosophy behind this comprehensive skin care brand is based on both nourishing the skin, as on stimulating the skin to repair and rejuvenate itself.

Classy and luxurious, with a tough edge. Pui Pui is the make-up brand with charisma! Pui Pui make-up stands out because of its high-quality Italian properties combined with its chic appearance.

# Lanèche

## Beauty Innovations

Improving the skin condition is the starting point for the Beauty Innovation Treatment Program. Using the BITP, a personal treatment plan can be created to bring every skin into top condition. The Beauty Innovation Treatment Program has 5 consecutive levels; conditioning, stimulating, optimizing, completing and perfecting. Each level has its own specific products and treatment options to improve the skin step by step.

# Henriëtte Faroche

## Where science and nature meet

Henriëtte Faroche's extensive skin care line offers products for every skin type and has many special care products that can be used alongside every product line. Unique within the Henriëtte Faroche range are the skin-type concentrates of essential oils, called Faromatique. The products for home use fit perfectly with the professional salon products. The extensive range of products makes it possible to compile a customized treatment based on the needs of the skin.

# Courtin

## Naturally Good

Tea tree oil is known for its supportive effect on the recovery of our body. Moreover, it can promote the healing of many skin conditions such as acne, fissures and corns.

Tea tree oil forms the basis for the products in the Courtin range. The treatments and the professional salon products for skin, body and foot care can be supported with the products for home use.

## Highlights Beauty

The Pui Pui assortment consists of a very complete range of products, a base for beautiful make-up and sufficient colour accents to give it a personal touch. Classy, powerful, mysterious, glamorous or natural. The right look for every occasion. Pui Pui make-up possesses high-quality Italian properties and consists of a very varied range. Pui Pui make-up is dermatologically tested and rich in vitamins A and E, which nourish, hydrate and revitalise the skin in a natural way.
